

# Gaywood School Advocates

Skye

I want to make people happy. I want to be sure that everyone has a great day!

Elsa

I wanted to become an advocate because I wanted to help little children grow up healthy and sensible.

Candi

It was a privilege to become an advocate! If you want to try it, it is your chance to give it a go! I wanted to help!

Charlie H

This school is fantastic! I wanted to try all the opportunities that come my way!

Cadee

I wanted to become an advocate because I like helping children and adults. I don't like to see children lonely. I want all children to make and have friends...

Erin

I wanted to be a School Advocate because I wanted to help the school in a bigger way and show what I could do. I think the job of being an Advocate is to help other people, keep the school great and to always be there if anyone – teachers or children- need help.

Our School Advocates are children in Year 6 who applied for their positions and were selected through being interviewed. They were chosen because we believe that through their skills, behaviour and achievements they display a quality that means they can represent our school and be excellent role models for all pupils. They have a variety of important jobs which can include showing visitors around the school, helping at events and assisting the school office team. As well as being great role models around school, the Advocates work on a variety of pastoral issues and help out across the school in a plethora of activities and events.

These include:

- helping out with Key Stage 1 at lunch time
- supporting the staff on the playground with all of the other children in school
- helping out with daily duties around the school and at break time
- showing visitors around the school and talking to them about Gaywood School and its ethos
- having the opportunity to be involved in the interview process for new staff

Theo

I wanted to be an advocate because I have experience and I enjoy the role of an advocate. I think the role of an advocate is to help out with the little children and to help the teachers. I also enjoy doing many of the jobs!

David

I wanted to become an advocate because I like to help people and I wanted to make the school a better place.

Charlie W

I wanted little children to look up to me and I wanted the chance to help them.

Grace S

I wanted to be an advocate, so I could help other children and make them friends if they have fallen out.

Rubie

I wanted to be an advocate, so I could learn and a responsible attitude. I also wanted to be someone that younger children I know can ask to help them.

Hannah

I wanted to be an advocate because I wanted the experience of many responsibilities.
