

## Excellent Facilities

We want to immerse our children in the curriculum and have set out our shared spaces that reflect and support our curriculum.

## Our Library

To support our children with reading for pleasure, we have completely revamped our library provision moving it to a larger space so that whole classes of children can enjoy selecting a variety of books in a calming environment.

## Our EYFS Outdoor Area

# New look play area unveiled

Gaywood Primary School held celebrations when a £50,000 revamped outdoor play area was officially opened.

West Norfolk Mayor Geoff Hipperson cut the ribbon in front of delighted pupils last week.

The outdoor area, which is for children in the school's Early Years and Foundation Stage (EYFS) classes, has now been doubled in size and has a large canopy enabling it to be used in all weathers.

Headteacher Neil Mindham said: "We have completely redesigned and revamped the

outdoor area and it is now much more vibrant and inviting for the children.

"It will have a massive impact on the pupils and help to improve their physical skills as well as their learning."

The area features different zones, such as a mud kitchen area, performance space and construction zone.

New play equipment has been installed and the existing trim trail has been given a makeover.

The upgrade was paid for by West Norfolk Academies Trust, which oversees the school.
