Guidance

Guidance for Parents/Carers

This week's pack supports the activities from the [Week 11 timetable](#) on Classroom Secrets Kids.

Maths – Numbers

This week, the numbers activities link to the concepts of **one less than**, **subtraction** and **order of numbers**. The activities in this pack can be printed out and should be completed with the support of an adult.

Recalling One Less (page 2)

Ask your child to count the objects in each box and then record what is one less than this number. Encourage them to recall the answer, but your child could also count backwards or use objects to find the answer if needed. You could do this using real life objects to recall one less for all numbers up to 20.

Subtraction (page 3)

Ask your child to cut out the ice creams (always supervise your child when using scissors!) Can they use the ice creams to help them solve all the subtraction problems? Ask them to record their answer in each box.

Order of Numbers (page 4)

Ask your child to fill in the blanks on each number line. They need to work out what the missing numbers are and record them in the correct position. Ask your child to check their answers by reciting each number that they have written and checking they are in the correct order.

This week's pack supports the activities from the [Week 11 timetable](#) on Classroom Secrets Kids.

Maths – Shape, Space and Measures

This week, the shape, space and measures activities link to **2D shape** and **3D shape**. The activities in this pack can be printed out and should be completed with the support of an adult.

2D Shapes (page 5)

Read each sentence to your child and ask them to draw a line to the correct 2D shape. This will help with recognising properties of different 2D shapes. As an extra challenge, ask your child to describe a shape for you to guess!

3D Shapes (page 6)

Ask your child to cut out the labels (always supervise your child when using scissors!) Read each sentence to your child and ask them to put the correct label into each box. This will help with recognising properties of different 3D shapes.

This week's pack supports the activities from the [Week 11 timetable](#) on Classroom Secrets Kids.

Phonics

This week, the focus is on applying phase 3 sound knowledge to reading and writing and reading CCVC words covered in phase 4. The activities in this pack can be printed out and should be completed with the support of an adult.

Match the Picture to the Phase 3 Sound (page 7)

The pictures represent 'purse' for the 'ur' sound, 'coin' for the 'oi' sound, 'cow' for the 'ow' sound and 'dinner' for the 'er' sound. Encourage children to name each picture and orally **segment** each word by saying all **sounds** in the word aloud. They can then match the picture to the phase 3 sound that is in the word.

Segmenting a Word (page 8)

The pictures represent 'turnip', 'shower', 'soil' and 'clown'. Encourage children to name each picture and orally **segment** each word by saying all **sounds** in the word aloud. Then ask them to write each sound that they can hear until they have written the whole word. Encourage them to keep their writing on the line.

Reading CCVC Words (page 9)

The **CCVC words** for children to read are 'swim', 'scoop', 'flag', 'plum' and 'twin'. Encourage children to read the words by saying each sound aloud and **blending** the sounds together. Once children have read each word, look at the pictures together and ask them to describe what they can see. They should then draw a line from each word to the corresponding image. **CCVC words** are words that follow the pattern consonant, consonant, vowel, consonant such as 'frog' and 'plug'.

Guidance for Parents/Carers

This week's pack supports the activities from the [Week 11 timetable](#) on Classroom Secrets Kids.

Phonics

This week, the focus is on applying phase 3 sound knowledge to reading and writing and reading CCVC words covered in phase 4. The activities in this pack can be printed out and should be completed with the support of an adult.

Writing CCVC Words (page 10)

The images show 'plug', 'grass', 'brush' and 'frog'. Encourage children to first describe what they can see in each picture. They should then write the **CCVC words** by **segmenting** and saying each sound aloud and writing it down. Each word is made up of four sounds.

Phonics Vocabulary

Sound refers to the single unit of sound in a word. Also known as 'phoneme'.

Blending refers to stringing together all the sounds in a word. For example, these three sounds, sh - e - ll, blend together to make the word 'shell'.

Segmenting refers to splitting up a word into the different sounds. It is the opposite of blending. For example, the word shell, can be segmented into three sounds (sh - e - ll).

Tricky words are words that are phonetically irregular, so they can not be sounded out and blended. As they can not be sounded out, we teach children to recognise tricky words as a whole word by sight instead.

CCVC words are words that are made up of a consonant, consonant, vowel, consonant sequence such as 'frog' and 'plug'.

This week's pack supports the activities from the [Week 11 timetable](#) on Classroom Secrets Kids.

Literacy

This week, the focus is on applying phase 3 sound knowledge to reading and writing. The activities in this pack can be printed out and should be completed with the support of an adult.

Reading Captions and Sentences (page 11)

The captions/sentences for children to read are 'a cow and an owl', 'you and I can meet at the river' and 'we will ring the church in the morning'. Encourage children to read each word in the caption/sentence either by sight, or by saying each sound aloud and **blending** the sounds together. You should encourage your child to read the **tricky words** by sight (see page 7 for phase 2 and phase 3 tricky words). Afterwards, encourage them to read the caption again as a whole. Once children have read each caption, ask them to draw a line from each caption to the corresponding image.

Writing Captions (page 12)

The image represents 'digging on the road'. Encourage your child to look at the image and describe what they can see. They should then write their sentence by **segmenting** each word and writing the sounds that they can hear. They may need to write some **tricky words** too (see page 7 for phase 2 and phase 3 tricky words). You may need to support your child in simplifying their sentence to help them write it.

Guidance for Parents/Carers

This week's pack supports the activities from the [Week 11 timetable](#) on Classroom Secrets Kids.

Phase 3 Sounds, Suggested Words, Phase 2 and Phase 3 Tricky Words

Sounds

j v w x y z qu ch sh th ng ai ee igh oa
oo oo ar or ur ow oi ear air ure er

Suggested Words

jam van web box six yak zip queen chick ship
bath ring rain feet light soap boot hook farm corn
cow oil ear chair pure letter

Phase 2 Tricky Words

I into of the no go

Phase 3 Tricky Words

he she we me be was you they all are my her

Practical Ideas

These do not need to be printed and are intended to offer ideas for furthering children's learning.

Practical ideas covering the development of language, physical and creative skills (page 13)

Practical ideas covering the development of maths, phonics and an activity from a Lockdown Live (page 14)

Further guidance for the activity linked to Lockdown Live (page 15)

Each practical idea has a short description underneath to help you in delivering this activity. The maths and literacy ideas relate to topics that children have covered this week including one less than and writing tricky words.

For other Resources and Ideas

- Go to <https://kids.classroomsecrets.co.uk/> for interactive games that your child can play.
- Access resources for all areas of EYFS learning, including activities just like the ones in this pack, for only £4.83 a month at www.classroomsecrets.co.uk

Assembly Activity

Celebration certificate

On the following page in this pack (page 10), we have included a 'Home Learning Hero' certificate for you to award. Each week, we'll be hosting a celebration assembly over on our Classroom Secrets Facebook page. For more information, we've added a link to the video of our very first celebration assembly which is available on our YouTube Channel:

<https://www.youtube.com/watch?v=883WUY1MU8Y&feature=youtu.be>
